**Thank you** for considering us for your porcelain veneers.

We have partnered with Jason J. Kim Dental Aesthetics to provide what we believe are beautiful, well-proportioned and natural looking restorations. Jason Kim's team of ceramists have created smiles for models, celebrities and international royalty. Visit **[www.jjkda.com](http://www.jjkda.com)** for more information on our laboratory.

Before designing your smile, we perform a thorough smile & facial analysis, as taught in New York University's aesthetic dentistry programs, so that we can deliver a well-proportioned smile that fits your face and lips.

We also offer a Smile PreView if you would like to see sample veneers in your mouth, before even starting. For those who may be uncertain or concerned about what the new teeth will look like, we can fabricate plastic veneers from an artistic wax-up and you can see them in your mouth before starting,...taking away any fears or concerns you may have.

When receiving porcelain veneers, most patients have a “wow” experience and report the new smile has changed their lives.

# Melissa

*Before*

*After*

*Dr Forlano and his staff had always provided me with the best care, so when the bonding on my front teeth began to wear away, there was no question as to who I would go for a solution. Dr Forlano and his staff had always answered my questions and any nerves I had went away. The whole process seemed to fly by and at no point did it affect my daily routine. I am so happy with the result. A truly beautiful and natural smile.*

# Daysi

*Before*

*After*

*"As a dental assistant, I have to be a role model for my patients. Dr Forlano gave me the gift of a beautiful smile. I am so grateful and extremely happy. I am a new woman. More confident than ever. It is so amazing how a great smile can change your perspective on life. A smile can conquer the impossible"*

# Diane

*Before*

*After*

*I always loved my smile but after Dr. Forlano was done with my teeth, I now love them too. Couldn't be more pleased.*

# Lauren

*Before*

*After*

*The bonding on my front teeth kept chipping. The veneers were well worth it! Before, I was embarrassed of my front teeth. Now, I love my smile and love how natural the results look!*

*Kim*

*Before*

*After*

*I have had many experiences in my past with other dental offices. It was such a pleasure to have found Dr. Forlano who could treat me for all my dental needs. He did a terrific job with my teeth that I could finally smile and feel good about myself. Thank you so much Dr Forlano.*

# Donna

*Before*

*After*

*I was not destined to have perfect teeth. It took Dr. Forlano, a consummate professional and absolute perfectionist, to provide that for me. The veneers he applied are more beautiful than the teeth they replaced. I also learned that it is never too late to have orthodontic work done. My lower teeth were straightened in less time than I envisioned and I could not be happier with the results.*

# Samantha

*Before*

*After*

*Everyone at the office is very professional and nice. I had an underbite and tooth-size discrepancy. Dr Forlano corrected everything with an appliance, then braces, then veneers. The process of wearing braces was extremely long for me, but well worth it. I love my new smile!*

## Donna

*Before*

*After*

*Disappointing results and painful experiences left me fearful...and doubtful. Dr. Forlano and his wonderful and caring staff have changed that. I've recommended him to family and friends and will continue to do so.*

# Alysha

*Before*

*After*

*I was never happy with how my front teeth looked. It's hard to be a teacher that doesn't smile. Now I'm proud to flash my new pearly whites!*

# Vincenza

*Before*

*After*

*I love my teeth, feel so comfortable smiling, which I did not do before Dr. Forlano did his "magic"! Thank you!!*

# Paula

*Before*

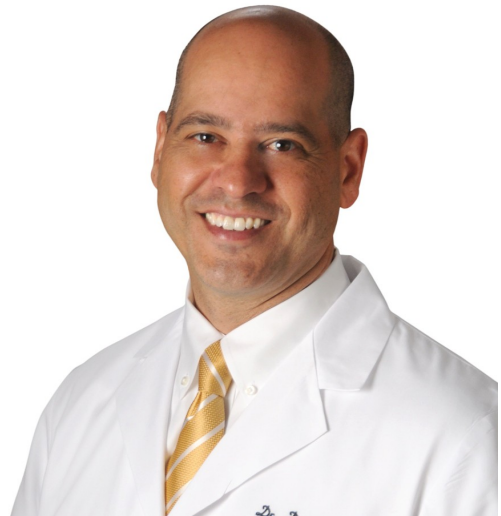

*After*

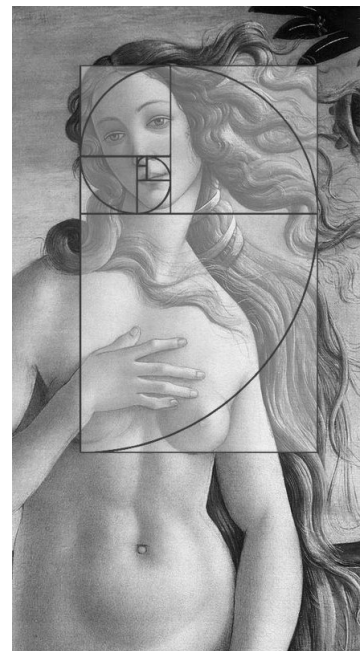

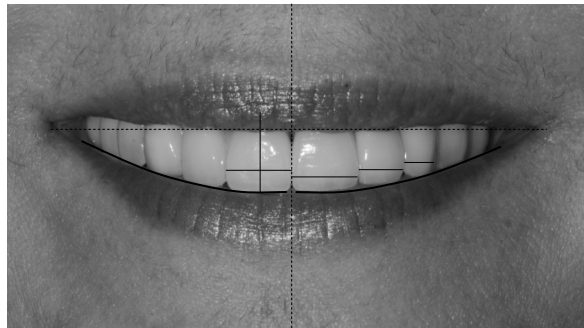

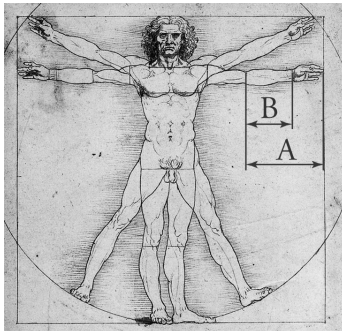

*Dr. Forlano gave me something to smile about..*

Elevating Your Expectations

More so than the color of your teeth, it is the proportions of the teeth and the shape of the embrasures that actually create a beautiful smile. In nature, art and architecture, it is the Golden Proportions that truly define beauty. We follow these golden proportions when designing a smile. We apply these proportions to your tooth height & width, your lip lines and your facial dimensions so that your teeth will fit your lips and face.
